

J. Manjunath

Python Full Stack Developer | MERN Stack

Chittoor, India | 9966586817 | mmanjunadh1@gmail.com | LinkedIn: manjunath-j-4291b4289 | GitHub: Manjunadh2323

SUMMARY

Aspiring Full Stack Developer with a strong interest in Python, Django, and MERN Stack, driven by curiosity and continuous learning. Passionate about building innovative web solutions and applying technology to solve real-world problems.

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern

May 2026 – June 2026 | Tirupati

Doneswari Technologies LLP

- Worked on assigned features and UI components of the Student Dashboard using React.js and Express.js.
- Made minor corrections and improvements to the Owner Dashboard layout and usability.
- Improved the DT Skills website UI, including colors, text styling, and layout elements for modern rendering.
- Collaborated with MERN Stack technologies on assigned end-to-end development tasks and backend integration.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

2023 – Present | Chittoor

Sri Venkateswara College of Engineering and Technology

PROJECTS

FitCore — Gym Management Platform

Jan 2026 – Mar 2026

Tech Stack: Python | Django | MySQL

- Developed a multi-gym management platform featuring separate owner, trainer, and member dashboards with role-based access.
- Implemented core features for memberships, attendance tracking, customized workouts, and personalized diet plans.
- Structured relational database schemas in MySQL to manage personal training schedules and secure payment logs.

Portfolio — Personal Developer Portfolio

Apr 2026 – May 2026

Tech Stack: HTML | CSS | JavaScript | Vite | GSAP

- Built a responsive personal portfolio to showcase engineering projects, skills, experience, and achievements.
- Added interactive UI animations, smooth navigation, and modern visual effects using JavaScript and GSAP.

BookMyMess — Mess Management Platform

May 2026 – June 2026

Tech Stack: MongoDB | Express.js | React.js | Node.js

- Contributed to assigned features and UI component improvements as part of a collaborative MERN Stack project.
- Built REST API integrations to streamline daily meal booking workflows and operational updates.
